

Client Success Stories

Salero Calo Flamenco

The owner of this teaching and entertainment business demonstrated genuine courage in leaving behind a traditional career path for one that reflected her true passion and desires. Annette's education and knowledge pointed to a career in finance and business administration, but what she really wanted was to impart the traditions of dance and music of Spain. She continues to engage in what she really loves - to teach, to perform and to regularly travel (to Spain!) with her students.

"Marlene was instrumental in helping me define what I wanted and loved to do. Through her questions, testing of my assumptions and feedback I was able to shed strong societal 'blocks' and start considering career options that allowed me to work with my interests and passion". - Annette Marcos
